

Is It Safe to Install GiAPA on Our Server?

GiAPA never

- copies or opens customer files or accesses customer data,
- modifies an operating system value or parameter, or
- calls customer programs (Exception: User exit programs defined to GiAPA)

The IBM i Operating System guarantees secure protection of user data:

GiAPA is shipped without authorization to access the contents of user objects.
GiAPA only processes resource usage data received from IBM APIs and commands.

CL-Commands used by GiAPA:

ADDJWDFN	CLOF	CRTPF	DLTUSRQ	ENDPEX	PGM	RNMOBJ	SNDPGMMMSG
CALL	CLOSE	CRTSAVF	DLTUSRSPC	ENDPGM	PING	RSTLIB	SNDRCVF
CALLSUBR	CLROUTQ	CRTSRCPF	DLYJOB	ENDSRVJOB	PRTPEXRPT	RSTOBJ	SORTDB
CHGCMD	CLRPFM	CVTDAT	DMPOBJ	ENDSUBR	RCLRSC	RTVDTAARA	STRJW
CHGCURLIB	CLRSAVF	DCL	DSPDTAARA	FMTDTA	RCVF	RTVJOBA	STRPCCMD
CHGDTAARA	CLRLIB	DCLF	DSPFD	FTP	RCVJRNE	RTVMBRD	STRPCO
